

➤ Not only biodegradable, these Eco-Cleaners contain live microbes which break down wastes and feed the soil.

➤ Our range of Bio-Fertilisers boosts the microbial activity of the soil and unlocks nutrients making them readily available.

➤ Our innovative inoculation techniques are patented in Australia and overseas.

VRM Group

VRM International Ltd

VRM Pty Ltd

Bio Start +

BioTech Innovators

Biotechnology: The use of microbes or biological substances to perform specific industrial or manufacturing functions.

VRM produces high quality Bio-Tech formulations for water and soil remediation. Functions include: Odour Control, Compost Accelerants, Bio- Fertilisers, Waste Treatment, Organic Recycling, Eco-Cleaners. The leading manufacturer/distributor of EM (Effective Microorganisms) products in Australia, VRM holds patents in Australia and overseas for its innovative Microbial Balancing technology.

VRM's Bio Start + is a probiotic growth enhancer combining the nutrient capacity of liquid kelp and the powerful beneficial action of friendly microbes. This combination produces a formulation which favours a rapid development of fermentative and rhizobial activity. For this reason the product is often used as a root growth stimulant. A key feature of this activity is a generalised stimulation of fungal activity. Because of this rapid effect, the product works extremely well as an inhibitor (by competitive exclusion) of fungal diseases.

Bio Start + will:

- **BOOST MICROBIAL ACTIVITY IN YOUR SOIL**
- **PROMOTE ROOT GROWTH**
- **CONTROL FUNGAL DISEASES**

APPLICATION RATES

	DOSE	FREQUENCY
INTENSIVE CROPS	5-15 Litres/Ha	At planting/seasonal
FRUIT CROPS	7-10 L/Ha	6 week cycle
PASTURELAND	5 L/Ha	Once per season
